

3900 South

Highland to 2300 East

June 24, 2010

CURRENT CONSTRUCTION ACTIVITIES

What: Crews will continue working on raising manholes in various locations. This activity is estimated to be completed by the end of this week. Crews will install the remaining traffic loops at the 2300 East intersection today. Crews will be completing minor landscaping and work items the rest of the week.

Traffic will be shifted in various locations at various times while crews finish manholes and work items. Please use caution.

Where: Along the entire length of 3900 South, from Honeycut Rd. to 2300 East. Some excavation and milling will extend into the side streets.

Why: To prepare for the new roadway and sidewalks.

When: Road construction will continue through July 2010.

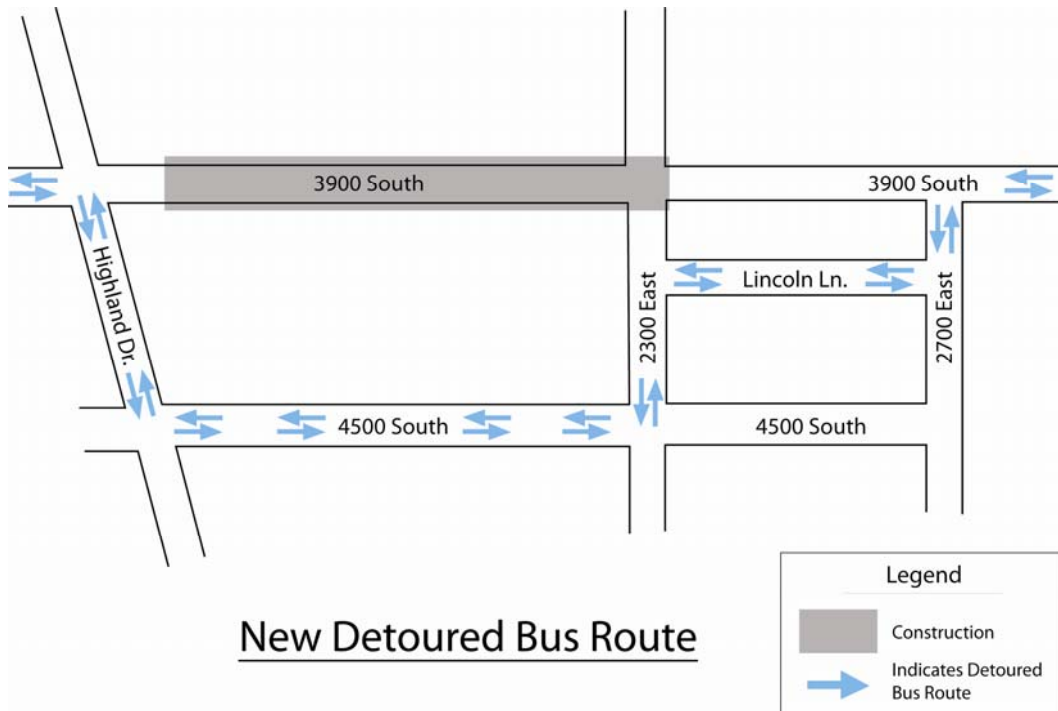

This schedule is subject to change due to weather or equipment related issues.

30 mph Speed Limit: For safety reasons, the enforced speed limit during construction is **30 mph**. Motorists should reduce speeds, be aware of their surroundings, and be prepared to stop at any time.

Mail Delivery: Through the duration of the construction project, the US Post Office will not be delivering mail to the residents and businesses with mailboxes located on 3900 South. Mail will be held at the Holladay Branch, located at 2350 Arbor Lane (approx 4750 South), Salt Lake City, UT 84117. Additional mailboxes will be removed within the next week to facilitate construction on the south side of 3900 South.

Garbage Pick Up: Residents/businesses located on the south side may place their garbage cans in their typical pick up location, either on the sidewalk or in a location that is a safe distance from the new travel lane. Trash pick up will continue to be on Tuesdays at 7 am.

UTA Bus Route: For safety reasons, UTA will be redirecting the detour route for route 39 during the length of this project. Buses will use 4500 South from Highland Drive to 2300 East to Lincoln Lane to 2700 East to 3900 South.

Cyclists & Pedestrians: The overall goal of the project is to make 3900 South safer for cyclists, pedestrians and commuters. Although we would like to accommodate cyclists and pedestrians during construction, it is not always feasible. For your safety as a cyclist or pedestrian, please consider an alternate route.
